Dear MAE Graduates,

Greetings from the School of Mechanical and Aerospace Alumni Association.

The MAE AA, a registered society is run by a group of alumni volunteers who have devoted their time to provide a focal point for all activities and interests for their fellow MAE alumni. The Association organises and facilitates a wide range of activities including social, leisure and networking to technical self-improvement courses and seminars. It collaborates with MAE student and graduate-student clubs in many ways within the MAE family as well as working with alumni associations in NTU, eg., Civil and Environment Engrg, Electrical & Electronic Engrg, Computer Engrg and Materials Engrg to provide mutual benefits in joint activities and expanded networking.

You can participate in these activities at special member price and be part of the MAE alumni family for a very low joining fee of \$10. So far, since inception in 1996, no subscription fee was levied. In a collaboration with NTU Development Office since 2011, MAE graduates who have donated \$10 and above to iGave, will automatically become lifelong member of MAEAA. The success of the Association depends just as much on the support and participation of its members as on its well-organised activities. You may wish to visit our website for details on the Association and discover the many exciting things that it has organised. At the same time, you can also check if you have been a registered member of the Club.

Here are some of the benefits a member can expect:

MEMBER'S BENEFITS

- Networking sessions
- Special or discounted prices for most activities (e.g. diving & trekking packages, etc.)
- Career Opportunities Advertisements and Referrals
- Technical Talks
- Extended benefits and special prices offered by other associations
- And will bring in more as they come along....

JOIN NOW and support your Association! It's simple. Complete the membership application form (overleaf) and send it together with your cheque to the above address, c/o Asst Prof Yeong Wai Yee.
